

**As Mathematicians we will ..**

Revise for our SATs then undertake investigations /calculator challenges to see how number is used in different contexts

**As Writers we will ..**

Develop our writing skills in a variety of genres including: debate, myths, poetry and play scripts. Through this, year 6 will be continuing to create a portfolio of writing for their SATs assessment.

**As Scientists we will ..**

Find out about the life cycles of a mammal, an amphibian, an insect and a bird so that we can describe the differences between them. We will also find out about the life process of reproduction in plants by first investigating and describing the parts of a flowering plant. We will observe these life cycle changes in the vegetables we grow in our planters.

**As Good Citizens we will ..**

Think about how we contribute to the legacy of our community

**Religious Education**

We will be discovering and experiencing how people express their faith through the arts across a variety of religions – to include questions of identity, diversity and belonging.

**As Entrepreneurs we will.....**  
  
Have involvement in key events through the summer term

**Educational Visit**  
*West Notts Poly looking at university life*  
  
**Learning out of the Classroom**  
  
Enjoy TEDDY BEARS PICNIC with the new reception intake

**As Artists we will ..**

Be involved in stage design  
Still life and portraiture
